Feel all used up—as if you could just go no further?

Why not look to your kidneys?

Why not use Doan's Kidney Pills?

Read the statement of this nearby resident:

Mrs. Hattie F. Dodge, West Topsham, Vt., says:

"When I got up in the morning, it seemed as if my back would break. It felt as if a rope was bound tight across my kidneys, causing almost unbearable pain. I couldn't rest comfortably in any position, and I got up in the morning feeling worn-out. Doan's Kidney Pills acted directly on my kidneys and soon made them normal."

How to stop dandruff and loss of hair with Resinol

Here is a simple, inexpensive treatment that will generally stop dandruff and scalp itching, and keep the hair thick, live and lustrous:

At night, spread the hair apart and rub a little Resinol Ointment into the scalp gently, with the tip of the finger. Repeat this until the scalp has been treated. Next morning, shampoo thoroughly with Resinol Soap and hot water. Work the creamy Resinol lather well into the scalp. Rinse with gradually cooler water, the last water being cold. All druggists sell Resinol Soap and Ointment.

MORE MEN THAN WOMEN HAVE APPENDICITIS

Surgeons state men are slightly more subject to appendicitis than women. Barre people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adler's-ka, often relieve or prevent appendicitis. This mixture removes such surprising food matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. The INSTANT, easy action of Adler's-ka is surprising. Cushing is suggested to the Democrats of Windsor county by the county committee as a suitable candidate for the office of state's attorney and will undoubtedly be the choice of the party at the primaries next month. That Order to the Border.

Now it is announced that the word suspending the movement of additional troops to the border came not from Secretary Baker, but from "a subordinate." And the said subordinate had the poor judgment to follow a suggestion of General Funston. But when the secretary returned to Washington he "straightened out the tangle"—also, no doubt, the tangle.

Now the troops, or 12,000 of them, are going down there after all. It isn't too late, for the railroad case is still unsettled and by sending the militia at once the administration can show the railroad union men that there was no intention to use intimidation or force in case of a strike.

Of course another possible solution would have been sending the guardsmen home. But that would have been too much like a confession that they were never needed. And two months before election is no time for confession.—New York Evening Sun.

SEC. DANIELS TELLS OF HIS LONG DREAMS

And How the Dreams Have Come True—Incidentally He Urges Democratic Success in Maine.

Rockland, Me., Aug. 31.—"The dreams have come true," said Secretary Daniels yesterday in an address here urging the election of Senator Johnson, Representative McGillicuddy and the other Democratic candidates for Congress in Maine.

"To the end that when Woodrow Wilson is inaugurated for his second term next March the Congress will be in sympathy with the policies of reform and progress which the Democratic party, aided by forward-looking men of other parties, will continue to carry out."

"Some days ago," said Secretary Daniels, "a veteran Republican member of the House, who suddenly became a naval expert and critic the day after his party went out of power, paid me the high compliment of stating that as a dreamer about naval affairs I might give points to Alva Scher in the Arabian Nights."

"I plead guilty to having been a dreamer about the navy. Soon after entering upon the duties of secretary, I had several well defined dreams."

"I dreamed of a navy with a full enlistment, having found it short about 5,000 men. This dream has been fulfilled and in three years 6,631 men have been enlisted as against 3,000 during the preceding four years. And then, when the authorized enlistment had been filled, I dreamed of Congress giving power to add enough men to man all the ships in the navy, something which
